

### **Stella Donnelly**

Proud, self-proclaimed shit-stirrer Stella Donnelly calls Fremantle home. So it's only fitting we open up Shed B for two huge nights with her as the star of the show.

Stella's an artist totally in command of her voice, able to blend her inviting charm and sharp wit into authentically raw songs. Her songwriting makes you feel like you're in her lounge and she's just made you a cup of tea and a slice of cake, so that you're comfortable when she hits you with some hard truths.

Her 2019 release *Beware of the Dogs* received international praise from outlets such as Rolling Stone, Pitchfork, Billboard, The New York Times and Stereogum and propelled Stella to new heights, including studio sessions for NPR's Tiny Desk and KEXP along with an envious international touring schedule. She sold out shows across North America and Europe and played prestigious festivals including Glastonbury, Roskilde and a stand out performance at Japan's Fuji Rock Festival. Now it's time for a special Festival home-town gig – a show you won't want to miss.
